Jim Yong Kim
President
World Bank Group

Dear Dr. Kim,

After consultation with our Presidents, we, the Bank Governors of the Pacific Alliance, would like to express our support to your candidacy for reelection as President of the World Bank Group for the five-year period starting in July 2017.

During your time as President you have shown an unwavering commitment to fight poverty and inequality, to champion an evidence-based approach to steer the Bank towards more effective development interventions, to foster the adoption of climate-friendly technologies, and to stress the relevance of humanitarian crises for development. You have also undertaken an Internal reform process in harmony with these goals and have pushed for funds to be allocated in a manner consistent with the evolving needs of member countries. These internal reforms are already rendering a leaner, more efficient and effective institution. Your dedication and commitment have enhanced the role of the Bank in the international development arena, as an institution always trying to serve its members efficiently and expeditiously, while delivering on a high impact.

We appreciate your commitment to Latin America and the Caribbean as a primary region of activity for the WGB in the various regional development programs undertaken by the Group in the past four years.

We have confidence that this rich agenda will have the necessary continuity under your leadership. We hope the membership will join us in supporting your reelection as President and look forward to continue working together in the coming years.

Sincerely,

**Alianza del
Pacífico**
