

**Voluntary Report** – Voluntary - Public Distribution

**Date:** March 20, 2023

**Report Number:** CH2023-0040

**Report Name:** China Releases the Standard for Maximum Levels of Contaminants in Foods

**Country:** China - People's Republic of

**Post:** Beijing

**Report Category:** FAIRS Subject Report, Sanitary/Phytosanitary/Food Safety

**Prepared By:** FAS China Staff

**Approved By:** Adam Branson

**Report Highlights:**

On June 30, 2022, the National Health Commission (NHC) and the State Administration of Market Regulation (SAMR) released the National Food Safety Standard for Maximum Levels of Contaminants in Foods (**GB 2762-2022**), which will enter into force on June 30, 2023. This standard updates the 2017 regulation of the same name, published as GB 2762-2017. FAS published a translation of GB 2762-2017 on May 9, 2018 (see GAIN report CH18025). This report contains an unofficial translation of the final standard. Changes from the previous version of the standard are marked in red.

## BEGIN TRANSLATION

### National Food Safety Standard Maximum Levels of Contaminants in Foods

#### Foreword

This standard replaces GB 2762-2017, National Food Safety Standard for Maximum Levels of Contaminants in Foods.

This standard modifies GB 2762-2017 in the following aspects:

- Modifies the terms and definitions;
- Updates the principles of application;
- Modifies the limit requirements on lead in some foods;
- Modifies the limit requirements on cadmium in some foods;
- Modifies the limit requirements on arsenic in some foods;
- Modifies the limit requirements on mercury in some foods;
- Modifies the terms used and location of notes and annotation in Table 5;
- Modifies the limit requirements for Benzo [a] pyrene in grain and its products;
- Modifies the limit requirements for polychlorinated biphenyl in foods;
- Modifies the testing methods used for the limits of contaminants in packaged drinking water;
- Adds the conversion ratio of liquid formula foods for infants and young children;
- Modifies the Appendix A.

### National Food Safety Standard for Maximum Levels of Contaminants in Foods

#### Scope

This standard sets limits for lead, cadmium, mercury, arsenic, tin, nickel, chromium, nitrite, nitrate, benzo[a]pyrene, N-nitrosodimethylamine, polychlorinated biphenyl, 3-chloro-1, 2-propanediol in foods.

#### Terminologies and definitions

##### Contaminant

Hazardous chemical substance, not intentionally added to food, but brought into such food in food production (crop growing, animal husbandry and veterinary medicine), processing, packaging, storage, transportation, distribution, and consumption, or as a result of environmental contamination. Contaminants in this standard refer to contaminants other than pesticide residue, veterinary drug residue, biotoxin, and radionuclides.

##### 2.1 Edible part

The part of food material for edible use, which is the remaining part after mechanical processing that removes the non-edible part (such as grain husk, fruit peeling, nut shell, bones in meat/fish, shell of shellfish).

~~Note 1: the non-edible parts cannot be removed by non-mechanical means (such as refining of crude vegetable oil);~~

~~Note 2: quantity of the edible parts may vary when different production techniques are used to produce the same food materials. For example, the edible part could be 100% when processing cereal and whole wheat flour from wheat, while the edible part is calculated by the actual flour extraction rate when producing wheat flour from wheat.~~

## 2.2 Limit

The maximum content of contaminants in food materials and/or the edible part of the finished food products.

### **Principles of (Standard) Application**

Regardless of existence of the contaminant limits, the food producers and processors should take control measures to keep contaminants in foods to a minimum.

This standard lists the contaminants that may pose high risks to the public health; the foods with contaminant limits are foods that pose a risk of higher impact on consumers' dietary exposure.

Explanation of Food Categories (Appendix A) is for defining the scope of application of the contaminant limits and is only applicable to this standard. When a contaminant limit applies to a certain food category, all types of foods in the food category are subject to the limit unless otherwise specified.

Levels of contaminants in foods are calculated based on the edible parts of the food unless otherwise specified.

When limits are set on fresh foods and their related products, such as dried meat products, dried seafood, dried edible mushrooms, the contaminant limits for dried products are calculated with the dehydration ratio or the concentration ratio of the corresponding fresh foods. If the contaminant content of the dried product is less than the limit requirements of the contaminants in its fresh material, it is determined that it complies with the limit requirements. The dehydration ratio or the concentration ratio may be determined by analysis of the food, by the information provided by the producer, or by other available data, unless otherwise specified.

## Specifications

### 4.1 Lead

4.1.1 Please refer to Table 1 for lead limits in foods.

**Table 1: Lead Limits in Foods**

Food Category (Name)	Limit (Pb) mg/kg
Grains and grain products <sup>a</sup> (excluding cereal, gluten, assorted cereal porridge, wheat, and rice products with fillings)	0.2
Cereal, gluten, cereal porridge, wheat and rice products with fillings	0.5
Vegetable and vegetable products	
Fresh vegetables (excluding brassica vegetables, leafy vegetables, leguminous vegetables, <b>ginger</b> , tubers vegetables)	0.1
Leafy vegetables	0.3
<b>Brassica vegetables</b> , leguminous vegetables, <b>ginger</b> , tubers vegetables	0.2
Vegetable products (excluding pickled vegetables, dried vegetables)	0.3
<b>Pickled vegetables</b>	0.5
<b>Dried vegetables</b>	0.8
Fruit and its products	
Fresh fruit (excluding cranberries and gooseberries)	0.1
<b>Cranberries, gooseberries</b>	0.2
Fruit products (excluding jam/fruit puree, candied fruit, dried fruit)	0.2
Fruit jam (puree)	0.4
Candied fruit	0.8
Dried fruit	0.5
Edible fungi and products ( <b>Button mushroom, oyster mushroom, shiitake mushroom, honey mushroom, king bolete, matsutake mushroom, truffle, green-head mushroom, termite mushroom, chanterelle mushroom, lactarius, wood ear, silver mushroom, and the products of the above-mentioned edible fungi</b> )	0.5
<b>Button mushroom, oyster mushroom, shiitake mushroom, honey mushroom and their products</b>	0.3
<b>King bolete, matsutake mushroom, truffle, green-head mushroom, termite mushroom, chanterelle mushroom, lactarius and their products</b>	1.0
<b>Wood ear and its products, silver mushroom and its products</b>	1.0 (calculated in dry weight)
Beans and bean products	
Beans	0.2
Bean products (excluding soy milk)	0.3
Soy milk	0.05
Fresh algae (excluding spirulina)	0.5
<b>Spirulina</b>	2.0 (calculated in dry weight)
Algae products (excluding spirulina products)	1.0

Food Category (Name)	Limit (Pb) mg/kg
<b>Spirulina products</b>	<b>2.0 (calculated in dry weight)</b>
Nuts and seeds (excluding <b>raw coffee beans</b> and <b>roasted coffee beans</b> )	0.2
<b>Raw coffee beans</b> and <b>roasted coffee beans</b>	0.5
Meat and meat products	
Meats (excluding viscera of livestock and poultry)	0.2
Viscera of livestock and poultry	0.5
<b>Meat products (excluding viscera of livestock and poultry)</b>	<b>0.3</b>
<b>Viscera of livestock and poultry</b>	<b>0.5</b>
<b>Aquatic animals and products</b>	
<b>Fresh, frozen aquatic animal (excluding fish, crustaceans, bivalve shellfish)</b>	<b>1.0 (viscera removed)</b>
<b>Fish, crustaceans</b>	<b>0.5</b>
<b>Bivalve shellfish</b>	<b>1.5</b>
<b>Aquatic products (excluding fish products and jellyfish products)</b>	<b>1.0</b>
<b>Fish products</b>	<b>0.5</b>
<b>Jellyfish products</b>	<b>2.0</b>
<b>Milk and milk products (excluding raw milk, pasteurized milk, sterilized milk, modified milk, fermented milk)</b>	<b>0.2</b>
<b>Raw milk, pasteurized milk, sterilized milk</b>	<b>0.02</b>
<b>Modified milk, fermented milk</b>	<b>0.04</b>
Egg and egg products	0.2
Fat and fat products	<b>0.08</b>
Condiments (excluding spices)	1.0
<b>Spices<sup>b</sup> (excluding peppercorn, cassia bark (cinnamon), mixed spices)</b>	<b>1.5</b>
<b>Peppercorn, cassia bark (cinnamon), mixed spices</b>	<b>3.0</b>
Sugar and starch sugar	0.5
Starch and starch products	
Edible starch	0.2
Starch products	0.5
Baked foods	0.5
Beverages (excluding packaged drinking water, fruit and vegetable juice/pulp and its beverages, milk containing drink, powdered drink)	0.3
Packaged drinking water	0.01 mg/L
<b>Milk-containing drinks</b>	<b>0.05</b>
<b>Fruit and vegetable juice/pulp and beverages (excluding fruit and vegetable juice/pulp with berries or small pieces of fruit and its beverages, concentrated fruit and vegetable juice/pulp)</b>	<b>0.03</b>
<b>Fruit and vegetable juice/pulp with berries or small pieces of fruit and beverages (excluding grape juice)</b>	<b>0.05</b>
<b>Grape juice</b>	<b>0.04</b>
Concentrated fruit and vegetable juice/pulp	0.5
Powdered drinks	1.0
Alcoholic beverages (excluding, <b>Chinese baijiu</b> , Chinese rice wine)	0.2
<b>Chinese baijiu</b> , Chinese rice wine	0.5

Food Category (Name)	Limit (Pb) mg/kg
Cocoa products, chocolate and chocolate products and candies	0.5
Flavored ice, popsicle	0.3
Foods for special dietary uses	
Formula food for infants and young children	<b>0.08</b> (powdered product basis)
<b>Supplementary foods for infants and young children</b>	0.2
Formulas for special medical purposes (excluding varieties related to formula foods for special medical purposes intended for infants)	
Products for children over 10 years old	0.5 (solid product basis)
Products for children between 1 to 10 years old	0.15 (solid product basis)
Complementary food supplement	0.5
Sports nutrition foods	
Solid, semi-solid, or powder	0.5
Liquid	0.05
Nutrient supplementary foods for pregnant and lactating women	0.5
Others	
Jelly	<b>0.4</b>
Puffed foods	0.5
Tea	5.0
Dried chrysanthemum	5.0
Tea of broadleaf holly leaf	2.0
Honey	<b>0.5</b>
Pollen	<b>0.5</b>
Rapeseed pollen	1.0
Pine pollen	1.5
<sup>a</sup> Paddy rice in the brown rice basis. <sup>b</sup> <b>Fresh spices (such as ginger, green onion, garlic, etc.) follow the corresponding fresh vegetable (or fresh fruit).</b> <sup>c</sup> <b>Limit values for liquid formula food for infants and children are converted with a ratio of 8:1.</b>	

4.1.2 Testing methods: **packaged drinking water is tested using the methods provided in GB 8538** and other foods using methods provided in GB 5009.12.

## 4.2 Cadmium

4.2.1 Please refer to Table 2 for Cadmium limits in foods.

**Table 2: Cadmium limits in foods**

Food category (name)	Limit (in Cd basis) mg/kg
Grains and grain products	
Grains (excluding paddy rice <sup>a</sup> )	0.1
Milled grain products [excluding brown rice, rice (powder)]	0.1
Paddy rice <sup>a</sup> , brown rice, rice (powder)	0.2
Vegetable and vegetable products	
Fresh vegetables (excluding leafy vegetables, leguminous vegetables, root and tuber vegetables, stem vegetables and citron daylily)	0.05
Leafy vegetables	0.2
Leguminous vegetables, root and tuber vegetables, stem vegetables (excluding celery)	0.1
Celery, citron daylily	0.2
Fruit and its products	
Fresh fruits	0.05
Edible fungi and its products	
Fresh edible fungi (excluding shiitake mushroom, morel, shingled hedgehog mushroom, green-head mushroom, chanterelle mushroom, honey mushroom, matsutake mushroom, king bolete, termite mushroom, lactarius, truffle, himematsutake, wood ear, silver mushroom, and the products of the above-mentioned mushrooms)	0.2
Shiitake mushroom and its products	0.5
Morel, shingled hedgehog mushroom, green-head mushroom, chanterelle mushroom, honey mushroom and its products	0.6
Matsutake mushroom, king bolete, termite mushroom, lactarius and its products	1.0
Truffle, himematsutake and its products	2.0
Wood ear and its products, silver mushroom and its products	0.5 (in dried basis)
Beans and bean products	
Beans	0.2
Nuts and seeds	
Peanut	0.5
Meat and meat products (excluding viscera of livestock and poultry and its products)	0.1
Liver of livestock and poultry	0.5
Kidney of livestock and poultry	1.0
Aquatic animal and its products	
Fresh, frozen aquatic animal	
Fish	0.1
Crustaceans (excluding sea crab and mantis shrimp)	0.5
Sea crab and mantis shrimp	3.0
Bivalves, gastropods, cephalopods, echinoderms	2.0 (viscera removed)
Aquatic products	
Canned fish	0.2

Food category (name)	Limit (in Cd basis) mg/kg
<b>Other fish products</b>	<b>0.1</b>
Eggs and egg products	0.05
Condiments	
Salt	0.5
Fish condiment	0.1
Beverages	
Packaged drinking water (excluding drinking <b>natural</b> mineral water)	0.005 mg/L
Mineral water	0.003 mg/L
<b>Foods for special dietary uses</b> <b>Cereal-based complementary foods for infants and young children</b>	<b>0.06</b>
<sup>a</sup> Paddy rice in the brown rice basis.	

4.2.2 Testing methods: **packaged drinking water is tested using the methods provided in GB 8538**, and other foods using methods provided in GB 5009.15 for testing.

### **4.3 Mercury**

4.3.1 Please refer to Table 3 for mercury limits in foods.

**Table 3: Mercury limits in foods**

Food Category (Name)	Limit (in Hg basis) mg/kg	
	Total mercury	Methyl mercury <sup>a</sup>
<b>Aquatic animals and products (excluding carnivorous fishes and its products)</b>	—	<b>0.5</b>
<b>Carnivorous fishes and products</b>	—	<b>1.0</b>
<b>Tuna and its products</b>	—	<b>1.2</b>
<b>Alfonsino and its products</b>	—	<b>1.5</b>
<b>Marlin and its products</b>	—	<b>1.7</b>
<b>Shark and its products</b>	—	<b>1.6</b>
Grains and grain products		
Paddy rice <sup>b</sup> , brown rice, rice (powder), corn, corn flour, corn dreg (grit), wheat, wheat flour	0.02	—
Vegetables and vegetable products		
Fresh vegetables	0.01	—
Edible fungi and its products (excluding wood ear and its products, silver mushroom and its products)	—	0.1
Wood ear and its products, silver mushroom and its products	—	0.1 (dried basis)
Meat and meat products		
Meats	0.05	—
<b>Milk and milk products</b>		
<b>Raw milk, pasteurized milk, sterilized milk, modified milk, fermented milk</b>	<b>0.01</b>	<b>—</b>
Egg and egg products		
Fresh egg	0.05	—

Food Category (Name)	Limit (in Hg basis) mg/kg	
	Total mercury	Methyl mercury <sup>a</sup>
Condiment Salt	0.1	—
Beverages Drinking natural Mineral water	0.001 mg/L	—
Foods intended for special dietary uses Canned complementary foods for infants and young children	0.02	—
<b>Remarks:</b> “—” means no relevant limit requirements.		
<sup>a</sup> For products with methyl mercury limits, total mercury could be tested first; if the total mercury level is lower than the limit of methyl mercury, it is not necessary to test the methyl mercury; otherwise, the methyl mercury shall be tested.		
<sup>b</sup> Paddy rice in the brown rice basis.		

4.3.2 Testing methods: packaged natural mineral drinking water is tested using the methods provided in GB 8538, and other foods tested using methods provided in GB 5009.17.

#### 4.4 Arsenic

4.4.1 Please refer to Table 4 for arsenic limits in foods.

**Table 4: Arsenic limits in foods**

Food Category (Name)	Limit (in as basis) mg/kg	
	Total arsenic	Inorganic arsenic <sup>b</sup>
Grains and grain products Grains (excluding paddy rice <sup>a</sup> ) Paddy rice <sup>a</sup> Milled grain products [excluding brown rice, rice (powder)] Brown rice Rice (powder)	0.5 — 0.5 — —	— 0.35 — 0.35 0.2
Aquatic animal and its products (excluding fish and fish products) Fish and fish products	— —	0.5 0.1
Vegetable and vegetable products Fresh vegetables	0.5	—
Edible fungi and its products (excluding matsutake mushroom, wood ear and its products, silver mushroom and its products) Matsutake mushroom and its products Wood ear and its products, silver mushroom and its products	— — —	0.5 0.8 0.5 (in dried basis)
Meat and meat products	0.5	—
Milk and milk products Raw milk, pasteurized milk, sterilized milk, modified milk, fermented milk Milk powder and modified milk powder	0.1 0.5	— —

Food Category (Name)	Limit (in as basis) mg/kg	
	Total arsenic	Inorganic arsenic <sup>b</sup>
Fat and its products (excluding fish oil and its products, krill oil and its products)	0.1	—
Fish oil and its products, krill oil and its products	—	0.1
Condiment (excluding aquatic dressing, blended condiment and spices)	0.5	—
Aquatic dressing (excluding fish condiment)	—	0.5
Fish condiment	—	0.1
Mixed condiment	—	0.1
Sugar and starch sugar	0.5	—
Beverages		
Packaged drinking water	0.01 mg/L	—
Cocoa product, chocolate and chocolate products and candies		
Cocoa products, chocolate and chocolate products	0.5	—
Foods intended for special dietary uses		
Complementary foods for infants and young children		
Cereal-based complementary foods for infants and young children (excluding products that add algae)	—	0.2
Products that add algae	—	0.3
Canned complementary foods for infants and young children (excluding products that are produced from aquatic products and animal liver)	—	0.1
Products that are produced from aquatic products and animal liver	—	0.3
Complementary food supplement	0.5	—
Sports nutritional food		
Solid, semi-solid, or powder	0.5	—
Liquid	0.2	—
Nutrient supplementary food for pregnant and lactating women	0.5	—
<b>Remarks:</b> “—” means no relevant limit requirements.		
<sup>a</sup> Paddy rice in the brown rice basis.		
<sup>b</sup> For products that should have inorganic arsenic limit, total arsenic should be tested first; when the total arsenic level is lower or equals to the inorganic arsenic limit, it is not necessary to test the inorganic arsenic; <b>otherwise, the inorganic arsenic shall be tested.</b>		

4.4.2 Testing methods: **packaged drinking water is tested using the methods provided in GB 8538,** and other foods use methods provided in GB 5009.11 for testing.

## 4.5 Tin

4.5.1 Please refer to Table 5 for tin limits in foods.

**Table 5: Tin limits in foods**

Food Category (Name) <sup>a</sup>	Limit (in Sn basis) mg/kg
Foods (excluding beverages, formula for infants and young children, complementary foods for infants and young children)	250
Beverages	150
Formula for infants and young children, complementary foods for infants and young children	50
<sup>a</sup> Only apply to foods packaged in containers of tinned plate sheet.	

4.5.2 Testing methods: use methods provided in GB 5009.16 for testing.

## 4.6 Nickel

4.6.1 Please refer to Table 6 for nickel limits in foods.

**Table 6: Nickel limits in foods**

Food Category (Name)	Limit (in Ni basis) mg/kg
Fat and its products Hydrogenated vegetable oil, products partly produced of hydrogenated vegetable oil and (or) containing hydrogenated vegetable oil.	1.0

4.6.2 Testing methods: using methods provided in GB 5009.138.

## 4.7 Chromium

4.7.1 Please refer to Table 7 for chromium limits in foods.

**Table 7: Chromium limits in foods**

Food Category (Name)	Limit (in Cr basis) mg/kg
Grains and grain products Grains <sup>a</sup>	1.0
Milled grain products	1.0
Vegetable and vegetable products Fresh vegetables	0.5
Beans and bean products Beans	1.0
Meat and meat products	1.0
Aquatic animal and its products	2.0
Milk and milk products Raw milk, pasteurized milk, sterilized milk, modified milk, fermented milk	0.3 2.0

<b>Milk powder and modified milk powder</b>	
<sup>a</sup> Paddy rice in the brown rice basis.	

4.7.2 Testing methods: using methods provided in GB 5009.123.

#### 4.8 Nitrite, Nitrate

4.8.1 Please refer to Table 8 for Nitrite and Nitrate limits in foods.

**Table 8: Nitrite and Nitrate limits in foods**

Food Category (Name)	Limits mg/kg	
	Nitrite (NaNO <sub>2</sub> basis)	Nitrate (NaNO <sub>3</sub> basis)
Vegetable and vegetable products Pickled vegetables	20	—
<b>Milk and milk products</b>		
<b>Raw milk</b>	<b>0.4</b>	<b>—</b>
<b>Milk powder and modified milk powder</b>	<b>2.0</b>	<b>—</b>
Beverages		
Packaged drinking water (excluding drinking natural mineral water)	0.005 mg/L (NO <sub>2</sub> basis)	—
Drinking natural mineral water	0.1 mg/L (NO <sub>2</sub> basis)	45 mg/L (NO <sub>3</sub> basis)
Foods intended for special dietary uses		
Formula for infants and young children <sup>a</sup>		
<b>Formula foods for infants, older infants, and young children</b>	2.0 <sup>b</sup> (powdered product basis)	100 <sup>c</sup> (powdered product basis)
Formulas for special medical purposes intended for infants	2.0 (powdered product basis)	100 (powdered product basis)
Complementary foods for infants and young children		
Cereal-based complementary foods for infants and young children	2.0 <sup>d</sup>	100 <sup>c</sup>
Canned complementary foods for infants and young children	4.0 <sup>d</sup>	200 <sup>c</sup>
Formulas for special medical purposes (excluding varieties related to formulas for special medical purposes intended for infants)	2.0 <sup>e</sup> (solid product basis)	100 <sup>c</sup> (solid product basis)
Complementary food supplement	2.0 <sup>b</sup>	100 <sup>c</sup>
Nutrient supplementary food for pregnant and lactating women	2.0 <sup>d</sup>	100 <sup>c</sup>

**Remark:** “—” means no relevant limit requirements.

<sup>a</sup> **Limit requirements for liquid formula foods for infants and young children are converted using a ratio of 8:1.**

<sup>b</sup> Only apply to milk-based products.

<sup>c</sup> Not applicable to products that have vegetables and fruits added.

<sup>d</sup> Not applicable to products that have beans added.

<sup>e</sup> Only applicable to milk-based products (do not contain bean substances).

4.8.2 Testing methods: beverages are tested using methods provided in GB 8538; other foods are tested using methods provided in GB 5009.33.

## 4.9 Benzo[a]pyrene

4.9.1 Please refer to Table 9 for Benzo[a]pyrene limits in foods.

**Table 9: Benzo[a]pyrene limits in foods.**

Food Category (Name)	Limit
Grains and grain products Paddy rice <sup>a</sup> , brown rice, rice, wheat, wheat flour, corn, corn flour, corn dreg (grit)	2.0
Meat and meat products Smoked, roasted, grilled meat	5.0
Aquatic animal and its products Smoked, roasted aquatic products	5.0
Milk and milk products Light cream, cream, anhydrous cream	10
Fat and its products	10
<sup>a</sup> Paddy rice in the brown rice basis.	

4.9.2 Testing methods: using methods provided in GB 5009.27.

## 4.10 N-Nitrosodimethylamine

4.10.1 Please refer to Table 10 for N-Nitrosodimethylamine limits in foods.

**Table 10: N-Nitrosodimethylamine limits in foods**

Food Category (Name)	Limit µg/kg
Meat and meat products Meat products (excluding canned meat) Dried cooked meat products	3.0 3.0
Aquatic animal and its products Aquatic products (excluding canned aquatic products) Dried aquatic products	4.0 4.0

4.10.2 Testing methods: using methods provided in GB 5009.26.

## 4.11 Polychlorinated biphenyl

4.11.1 Please refer to Table 11 for polychlorinated biphenyl limits in foods.

**Table 11: Polychlorinated biphenyl limits in foods**

Food Category (Name)	Limit <sup>a</sup> µg/kg
Aquatic animal and its products	20

<b>Oil and its products</b>	
<b>Aquatic animal oil</b>	<b>200</b>
<sup>a</sup> Polychlorinated biphenyl is calculated by total of PCB28, PCB52, PCB101, PCB118, PCB138, PCB153 and PCB180.	

4.11.2 Testing methods: using methods provided in GB 5009.190.

#### 4.12 3-chloro-1, 2-propanediol

4.12.1 Please refer to Table 12 for 3-chloro-1, 2-propanediol limits in foods.

**Table 12: 3-chloro-1, 2-propanediol limits in foods**

Food Category (Name)	Limit mg/kg
Condiment <sup>a</sup>	0.4
Solid condiment	1.0
<sup>a</sup> Only limited to products that with added acid-hydrolyzed vegetable protein.	

4.12.2 Testing methods: using methods provided in GB 5009.191.

## Appendix A: Explanation of the Food Categories

A.1 Please refer to Table A.1 for explanation of the food categories.

**Table A.1: Explanation of the Food Categories**

<b>Fruit and its products</b>	<p>Fresh fruit (unprocessed fruit, surface-treated, peeled or pre-cut, frozen fruit)</p> <ul style="list-style-type: none"> <li>Berries and other small fruits (for example cranberry and gooseberry)</li> <li>Other fresh fruit (including sugar cane)</li> </ul> <p>Fruit products</p> <ul style="list-style-type: none"> <li>Canned fruit</li> <li><b>Dried fruit</b></li> <li>Fruit processed with vinegar, oil, or salt</li> <li>Fruit jam (paste)</li> <li><b>Candied and preserved fruits (including hawthorn sheets)</b></li> <li>Fermented fruit products</li> <li>Cooked or fried fruits</li> <li>Fruit dessert</li> <li>Other fruit products</li> </ul>
