

Click now on *Pulso Sanitario!*

- **We bring you clear and timely sanitary information**

Dear user, we at SENASICA love to innovate and bring you new tools to make your tasks easier. So, today we put at your disposal *Pulso Sanitario*: a virtual space where you can download accurate and timely data about sanitary and safety subjects in Mexico and around the world.

Through this microsite, you will have access to a depository of relevant information about plant and animal pest and diseases which can harm the primary food production, their geographic location and the actions carried out by the Secretariat of Agriculture to prevent their introduction and spreading throughout our country.

You don't need to be an expert in agri-food subjects to understand its contents, since the microsite was created by sanitary intelligence experts. It is designed so farmers, livestock breeders, fish farmers and the public in general have access to lots of clear and precise information.

Don't wait, visit us at <https://dj.senasica.gob.mx/pulsosanitario/> and start to discover the fascinating agri-food world and all the knowledge from our technicians, which help us being a world power in the production and export of healthy and safe food.
