

Document of operation of the Expert's Group

The Expert's Group is the consolidation of a work group which, through its members, represents all scientific disciplines in connection to the inputs used in organic production.

The work developed by this group assists the Secretariat of Agriculture in the performance of their duties, authority, and functions, in accordance with the Organic Produce Law (LPO, in Spanish) and its regulations, and the updated "Agreement to inform the Guidelines for Organic Operations of agriculture and livestock operations", published in the Federal Official Gazette on June 08, 2020, to the effect of updating the National List of authorized substances for Organic Agriculture and Livestock Operations.
