

# Criteria for the elaboration of 2017 Work Programs

Based on articles 33 section III of the Federal Plant Health Act and 35, 37 section IV, 86 and 88 of the Regulations of the Federal Plant Health Act, published in the Official Federal Gazette (DOF) on July 15, 2016, which empower the National Agro-alimentary Health, Safety and Quality Service (SENASICA), to disclose the criteria to be used for the preparation of 2017 work programs for Plant Health Projects.

These criteria are issued for the formulation of work programs for phytosanitary campaigns, as well as those corresponding to the National System of Plant Health Epidemiological Surveillance, conducted through the Ancillary Plant Health Agencies.

The main points of the programs are described in the cover page, justification on the importance of the pest and the crops where the project will be applied. Furthermore, the objective-goal, operational strategy of the plant health project, physical and financial needs, budget plan, as well as the indicators related to the fulfillment of the goals established in such phytosanitary projects are outlined.
