

What do we do?

Senasica protects agricultural, aquaculture and livestock resources from **pests and diseases** of quarantine importance. Senasica also regulates and promotes the application and certification of contamination risk reduction systems for food and agro-alimentary quality, to expedite domestic and international trade for goods of plant and animal origin.

Mission

To regulate, manage and promote agrifood health, safety and quality activities, reducing the inherent risks of agriculture, livestock, aquaculture and fisheries activities for the benefit of producers, consumers and the industry.

Vision

A transformed and modern SENASICA equipped with a legal framework that achieves health safety and facilitates trade, and with a consolidated technical and scientific platform with national and international recognition that provides certainty.

Our beginnings

Client and citizen satisfaction (social focus)

Meeting social needs and expectations is the engine of quality and subsistence of institutions.

Quality (doing what we have to do and doing it correctly)

Understanding quality in everything we do as a culture is a daily challenge and permanent commitment.

Scientific support (foundation of our operation)

Rational, systematic, exact, verifiable and reliable knowledge. It is dynamic and universal in nature.

Ethics (action framework)

It is our day to day work, always making use of clear, objective, fair rules, and above all on equal terms.

Innovation and continuous improvement (manage change)

These are the key to sustainable development, adding value to all processes and results.

Efficiency (measurement)

Securing optimal results for the organization, clients, citizens and stakeholders.

Values**Participatory leadership**

Through active involvement, to inspire, reassure and drive staff towards the attainment of the organization's vision and mission.

Commitment to Service

It is people who make the difference in organizations.

Teamwork

It is the work structure that promotes the development and involvement of all individuals and groups in the organization.

Order and discipline

Preserving order and respect by following rules and procedures, bearing in mind that we must give an institutional example.

Personal development

Having committed resulted-oriented people who are motivated and encouraged to drive their development.

Honesty

Congruent way of living between our thoughts, words and actions and treating everybody equally.
