

Follow-up of samples for phytosanitary diagnosis

National Center of Phytosanitary Reference (Centro Nacional de Referencia Fitosanitaria)

National Service for Agrifood Health, Safety and Quality (Servicio Nacional de Sanidad, Inocuidad y Calidad Agroalimentaria)- January 25, 2022

Senasica, through the General Directorate of Plant Health, offers you the follow-up of the phytosanitary diagnostic service, with the purpose of informing you about the status of the sample for its testing and analysis process in the official laboratories of the National Center of Phytosanitary Reference.

This activity is part of an exercise that strengthens transparency and confidence in the services offered by Senasica, for the benefit of plant health, the country's agriculture and the different users of phytosanitary diagnostics.
