

Animal Health Quality Password for Reliable Import Users

UCÔN

Symbol of Confidence

It is granted to TIF Establishments that act with responsibility and commitment in the importation of goods of animal origin.

Legal Framework

NOM-030-ZOO-1995

Agreement establishing the Animal Health Quality Password for Reliable Import Users and its **amendments.**

Benefits

Expedites the importation of shipments destined to a TIF establishment.

Reduces shipment release time at the point of entry into the country.

Cost savings operational maneuvers at the point of entry.

By **streamlining** the import processes, the **Reliable User** generates prestige in the market and increases its competitiveness.

Most of the shipments imported with the password are **inspected at the TIF establishment** by veterinarians authorized by Senasica.

The procedure is free of charge and is valid for two years, which reduces the regulatory burden.

Facilitates the traceability of the merchandise, which generates greater confidence in the innocuousness of the products.
