

Recommendations

International English Language Olympia - Uni is the first of its kind on the educational world map to integrate the cultures of different people through a single educational vision.

The Olympia combines English learning with cross cultural knowledge using technology, scientific research and teamwork activities.

This can only be achieved via the collective efforts of concerned bodies, whether educational or other public and private civil society institutions.

We aspire that the ELO becomes a permanent platform for several countries around the world and remains successful to reflect positively on the performance on the educational institutions, educators and students.
